

Competitive Landscape Analysis

Competitor	Type	Strengths	Weaknesses
Muse (by InteraXon)	Direct	Established brand, advanced EEG technology, strong global presence	Expensive, not focused on the Indian market, limited affordability
Emotiv	Direct	High-quality neurofeedback devices, strong research backing	High-cost hardware, complex setup, not designed for career counseling
NeuroSky	Direct	Affordable BCI devices, proven technology	Outdated software, lacks AI-driven personalized cognitive solutions
Mindvalley	Indirect	Strong content on meditation and self-improvement	No real-time neurofeedback, lacks scientific validation
Calm/Headspace	Indirect	Popular meditation and stress management apps	No BCI integration, lacks cognitive training and career counseling features

How CerboTech Stands Out

- ✓ **IIT-validated technology** with real-time **BCI & AI-driven** cognitive analysis
- ✓ **Affordable & scalable solutions** for students, professionals, and wellness seekers
- ✓ **B2B & B2C models**, targeting **mental wellness, career counseling, and stress management**
